4.

Logo goes over the text, little bug but needs fixing

5. In home + search cosplayer search field “Characters”, people need to be able to search on a specific word. Not just categories.

Already really happy with the split of the different characters. Just one more thing:

When the cosplayer selects a file to upload, they NEED to specify which Cosplay this is. For example “Batman”. Then this batman picture shows under “Movie Characters” in their profile. Customer needs to be able to search “Batman” and find this cosplayer with the batman cosplay.

Movie Characters

Select file to upload

6. When on homepage “Special Cosplay Stars”, when I click on his profile it doesn’t take me to his profile

7. When logged in as cosplayer it doesn’t show homepage at the top left.
